**UFO® Maggiora neck guard**

Riders need all the protection possible and the new UFO maggiora neck roll/brace offers just that. Placed underneath the helmet the UFO neckguard will give extra support to your neck in the event of a collision. It is designed to stop the head from being knocked from side to side or backwards, it also supports the helmet in normal riding positions. It has a zipped flap at the back so you can remove the foam and wash the brace if required. It is fastened at the front with velcro. Made out of a high quality dense foam and covered with a tough lycra cover. The UFO maggiora neck roll/brace is more of a oversize than the standard UFO neck guard.

**Adult**
