BIKER CARBON

Three composite (Carbon fiber/Kevlar/Fiberglass)

New Biker three composite helmet offering a new fit, function and comfort. The material is mixed with resin to form a pre-impregnated sheet that is hand-laid into the mold to form the outermost layer of the shell. Although expensive and time consuming, the result is greater strength with less weight while offering increased fatigue resistance and dimensional stability. Three composite materials are known for their strength, durability and lightweight.

- Meets or Exceeds Dot Approval
- 3 snap visor included
- Plush Interior padding for Comfort
- Secure D-Ring Closures
- Lightweight (730 grams) & Compact
