Use mounting kit on p.186

### Electric start engine

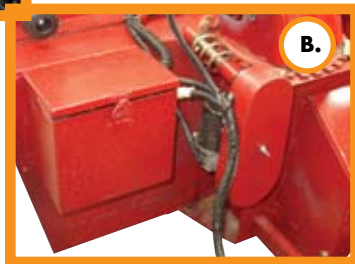

13HP engine with electric start. The engine can be started manually too.

<b>84-1000</b>	Lifan manual start engine	(N)	<b>\$649.99ea</b>
<b>84-1004</b>	Lifan electric start engine	(N)	<b>\$799.99ea</b>
<b>33-365</b>	Batteries 12V VIR-32A	(D)	<b>\$79.99ea</b>
<b>33-742</b>	Maintenance Free Gel Batteries 12V-32A	(D)	<b>\$129.99ea</b>
<b>566-1045</b>	Battery Charger 12V	(D)	<b>\$39.99ea</b>
<b>08-961</b>	Battery Tendercharger 12V	(D)	<b>\$74.99ea</b>
<b>08-965</b>	Gel Battery Charger	(D)	<b>\$89.99ea</b>
<b>26-BPR6ES</b>	Spare Spark	(D)	<b>\$3.99ea</b>

The "S.E" Quadrax snowblower features the following improvements : 1,2,3,4,5,6,7 included

1

2

### 2. Chute rotation and deflector switch

Your choice of 3 different heights for handlebar installation.

You can install the switch box :

- A.** on the handlebars
- B.** on the throttle body.

The chute rotation and deflector switch can be installed or removed easily from the throttle body or the handlebars.

### 1. Discharge chute

The discharge chute is equipped with 2 electric motors.

- A.** One motor is used for the deflector movements (Up-Down).
  - B.** The second one is used for the chute rotation (Left-Right).
- The discharge chute rotates +/- 290°.

The chute rotation motorchain is protected and enclosed in a metal casing. The inside of the discharge chute is lined with a plastic material allowing a better snow discharge. Thanks to this plastic material the paint inside the discharge chute will not chip or peel (less corrosion). This plastic material will also protect the discharge chute against rocks and debris.

<b>84-7401 (A1)</b>	Motor for chute vertical swing 30W	(D)	<b>\$99.99ea</b>
<b>84-7713 (B1)</b>	Motor for chut ground swing 50W	(D)	<b>\$109.99ea</b>
<b>84-7808 (A2-B2)</b>	Switch for rotation, deflector and kill switch	(D)	<b>\$59.99ea</b>
