Cross-reference chart

Raptor Roll Design brake lever by IMS

- Re-routes the brake lever over the foot peg rather than underneath like OEM. Provides more ground clearance and reduces the chance for the lever to get caught on rocks, branches & debris
- Eliminates the bulky stock heim joint linkage which saves weight and alleviates potential linkage failure.
- Available for use with stock Raptor pegs or for use with Roll Design ATV Race Foot Pegs.

18-M2020	Raptor for Roll Design #18-M2004 or #18M2005	ALL	(B)	\$120.99
-----------------	---	-----	-----	-----------------

Oxlite hand shifter

- Utilizes stock shift lever and front rack for mounting
- Adds hand-operated shifting capability while retaining foot operation
- Complete with mounting hardware and instructions

Yamaha 356-0166	YFM 400 FW Kodiak 4WD	95-99	(G)	\$92.99
----------------------------------	-----------------------	-------	-----	----------------

Brake snake

Solve the problem of bending brake pedals around the footpeg after a lowside crash. Attaches to the tip of the brake pedal and to the frame for a positive hold.

08-B5724			(B)	\$8.99
