

Load Equalizer III

New for Harley-Davidsons equipped with the TSSM security/ alarm module or the TSM turn signal module. This module works flawlessly with the new generation of Harley-Davidson modules and is compatible with virtually any of the custom turn signals available. Works great with halogen and LED's. Unlike others, this module allows your security system to work properly all the time. This new module produces absolutely no heat and is also intended for the 1991 and up standard turn signal modules.

*** Strongly recommended on all 2000 & up Harley Davidson's**
*** Fits models from 1991 thru present**

51-LE03	Load Equalizer III	(D)	\$99.99

The Illuminator Pro

This module will work on any stock Harley Davidson and Custom V-Twins. The features of this module are:

- Built in Automatic canceller
- Built in Load Equalizer
- Front running lights and turn signal on single filament bulbs, halogen bulbs, and LED's
- Rear running lights, brake and turn signal function on single filament bulbs, halogen bulbs, and LED's
- Emergency flasher option, that does not build up heat
- Cancels at any time (quick lane changes)

51-LLPRO		(D)	\$179.99

Original & Plug-In Illuminator Run, Brake, & Turn Module

This module triples your visibility in the rear. Install a pair of red lenses on your stock or custom turn signals. With the Illuminator installed you now have three running lights. Hit the brakes and you have 3 brake lights. Touch your turn signal button, and you maintain your turn signal function while the other side remains a running light, or brake light.

- Built-In Load Equalizer
- Runs your stock OEM turn signals
- Runs custom turn signals (no matter how small), Halogen and LED.
- Easy to follow instructions
- All wire connectors included
- Made in the USA
