K&N
PERFORMANCE FILTERS

Superior Filtration:

This should be the last oil filter you will ever buy! Made from laser cut, medical grade, 304 stainless steel micronic filter cloth, this filter provides 200% more filter area. Our stainless filter catches items down to 35 microns, which is about 3 times better than most good paper or brass filters. Unlike glued paper filters, the FLO Oil Filter pleat seam is welded and able to withstand up to 600 degrees.

This filter maintains consistent flow under all conditions including extreme heat, the presence of water, and cold start ups where paper filters can flow so poorly that they often cause the bypass valve to open and allow unfiltered oil to enter your engine!
